FEATURES INCLUDE:

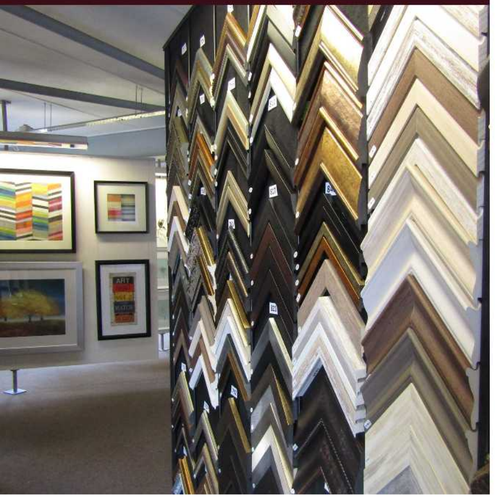
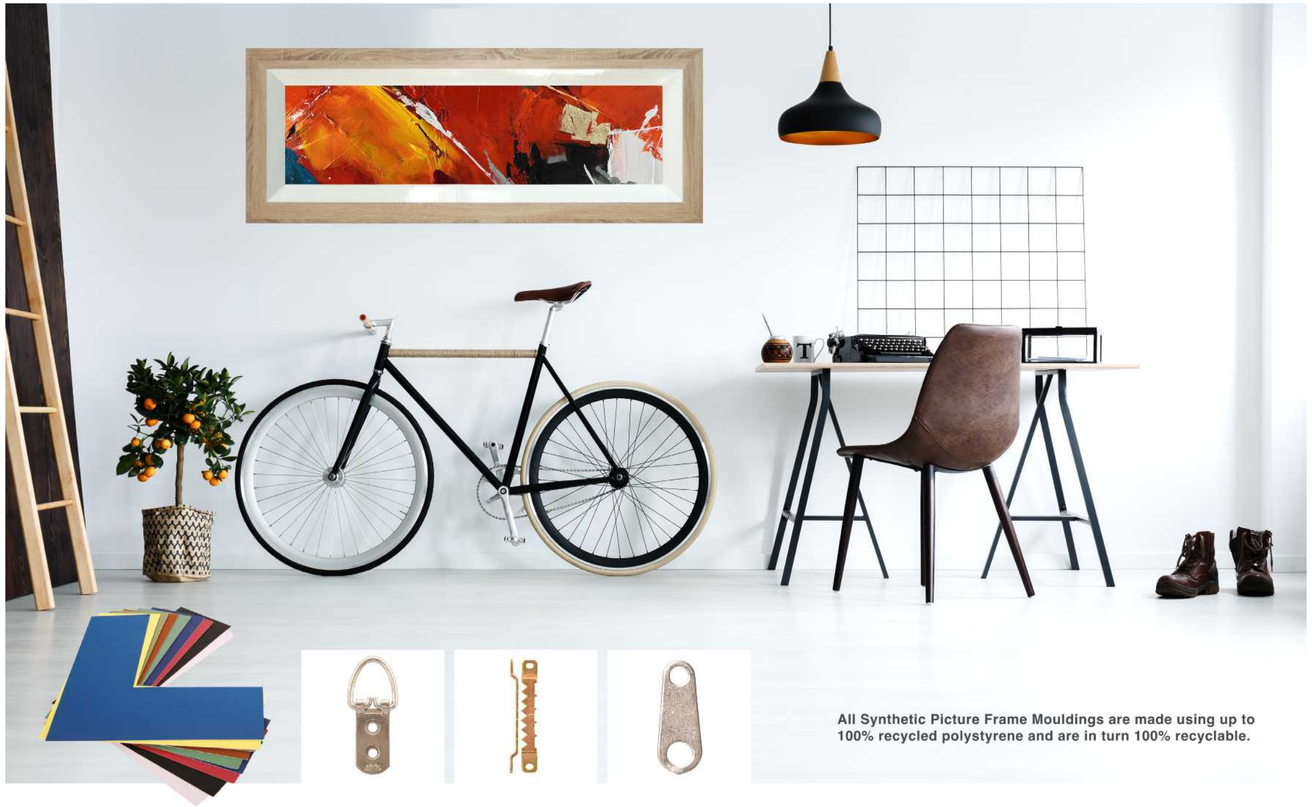
- Pelmets and Accessories.
- Curtain Rods and Accessories.
- Mirrors (Local/Imported).
- Framed Prints.
- Object Art.
- Wood Carvings.
- Canvas Art/Oil Paintings.
- South African Photography.
- Ready-made Photo Frames.
- Glass Art.

THE PICTURE FRAME MOULDINGS AND ACCESSORIES RANGE

Supreme Mouldings is South Africa's largest supplier of picture framing products. With over 600 profiles as well as a large range of colour selections, we can satisfy the most diverse of customer needs.

- Picture Frame Mouldings (Synthetic, Aluminium, Wood).
- Mount Boards.
- Accessories.
- Wide Range of Backing Boards.
- Manual and Computerised Machinery and Hand Tools.





All Synthetic Picture Frame Mouldings are made using up to 100% recycled polystyrene and are in turn 100% recyclable.

OUR RECYCLING PROGRAMME

Driven by the need to reduce raw material costs and our commitment to being environmentally conscious, we established a nationwide polystyrene collection network in 2006.

Today the programme collects in excess of 100 tons of waste polystyrene a month which previously found its way into landfill, rivers and the ocean.

"Your environmentally conscious alternative"

1. Non-biodegradable polystyrene is a major component of plastic debris in the ocean and is extremely dangerous to our marine life.

2. Trucks are sent out daily to collect in Johannesburg, Cape Town, East-London, Uitenhage, Durban and Pretoria. We collect in excess of 1200 tons of waste polystyrene each year.

3. Once collected, the polystyrene is melted and compressed into square blocks called ingots and then transported to our manufacturing plant in East-London.

4. The ingots are chipped and made into pellets which are recycled and blended together with other material to make our mouldings, which are then coloured and foiled for boxing and distribution.

5. Recycled and Recyclable Picture Frame Mouldings and Skirtings. All picture frame mouldings and the majority of the architectural products are now made of up to 100% recycled polystyrene.

Saving Natural Resources
Saving you

SUPREME MOULDINGS

Design, creativity, innovation and flexibility at your fingertips.

Founded in 1978, we started life as a manufacturer and distributor of picture frame mouldings. Through the years, we have added a comprehensive range of architectural and décor mouldings to our portfolio.

Everything we create is driven by market trends and what sets us apart is our ability to finish according to customers' bespoke needs.

OUR MISSION STATEMENT
Through effective leadership, management and by living our values, Supreme Mouldings strives for excellence in every product and service we offer. Our goal is to create value for all our stakeholders and shareholders alike.

OUR VALUES

- Business with Integrity.
- Respect for individual and environment.
- To uphold a high performance culture.
- Excellence in product and service.
- Leadership by example.

MANUFACTURE
We are based in East London, with a factory floor area of 10 000 square metres with the capacity to produce in excess of 700 000 metres of product per month. With a management team that boasts over 200 years combined experience, excellence is woven into the fabric of the factory and serves to ensure that everything that leaves our floor exceeds customer expectations.

Our quality control department is supported by one of South Africa's leading analytical polymer science laboratories based in Stellenbosch. Having our own R&D department allows us to cater for individual client needs as well as to remain at the forefront of market trends.

SALES, MARKETING AND DISTRIBUTION
Our head office, main warehousing and distribution hub is located in Robertville, Johannesburg with branches in Cape Town and Durban. Each warehouse carries the full product range and local delivery is generally effected within 24 hours of placing the order. Courier orders are dispatched within 48 hours.

The offices are staffed with competent and knowledgeable sales personnel who will gladly assist with any queries or advice.
