There are two types of entrance mats:

ACTIVE

Active mats are static. Static is an electric field that acts as a magnet for dirt. A static mat, then, actively attracts and absorbs dirt off shoe soles. These mats are best for internal use, since wet weather can dissipate static electricity. The ideal Active mat will attract dirt and absorb moisture so as to dry wet feet.

PASSIVE

Passive mats do not have static properties and act to either loosen dirt, scrape dirt or allow a certain amount of dirt to fall through. Compared to an Active mat, a passive mat does not absorb a lot of dirt or moisture. But a major role of a Passive mat can be external, where an Active mat is unsuitable.

When thinking of mat requirements, it helps to question the following:

1. How many people will be going through the entrance, per day?
2. In inclement weather, how many m² of matting will be required to dry that many pairs of wet feet?
3. How many foot contacts on the mat can reasonably be expected to have cleaned the under-soles of feet?

Ideally, a proper matting system should consist of three stages to give best results, namely:

Stage 1 (External)
To scrape dirt and loosen caked mud

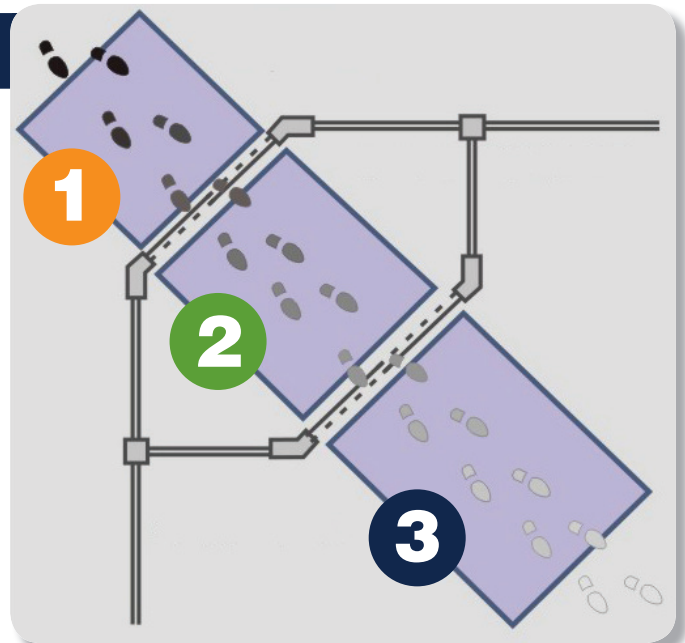

1

Stage 2 (Weather lobby)
Further scrape and absorb dirt
and dry moisture off wet feet

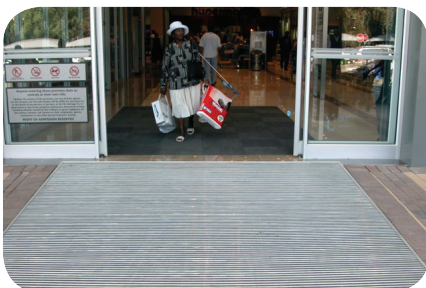

2

Stage 3 (Internal)
Final dirt and moisture absorber

3

Mat types

Stage 1

Loosen dirt

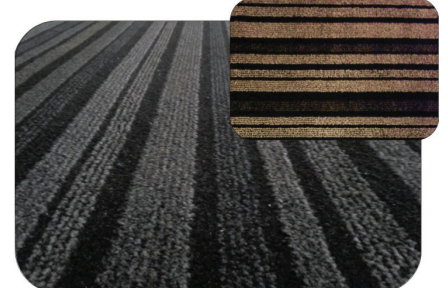

Non-slip rubber traction wiper strips

Stage 2

Absorb dirt and moisture

Absorbent static nylon-rubber wiper strips

Stage 3

Final "vacuum" and polish

Absorbent static nylon soaker mat

Traffic Category: Ultra-Heavy Duty

Extra Heavy goods, Motor vehicle, Foot & Wheelchair traffic.

Suitable for 2 million+ monthly foot count

Safe/suitable for:

Internal/Undercover use

Used in International Airports, Major Shopping Malls, Hospitals – where heavy trolley traffic is extreme

Effectiveness Rating:

Dirt Attraction: 10 | Absorption: 10 | Durability: 10 | Cleanability: 10

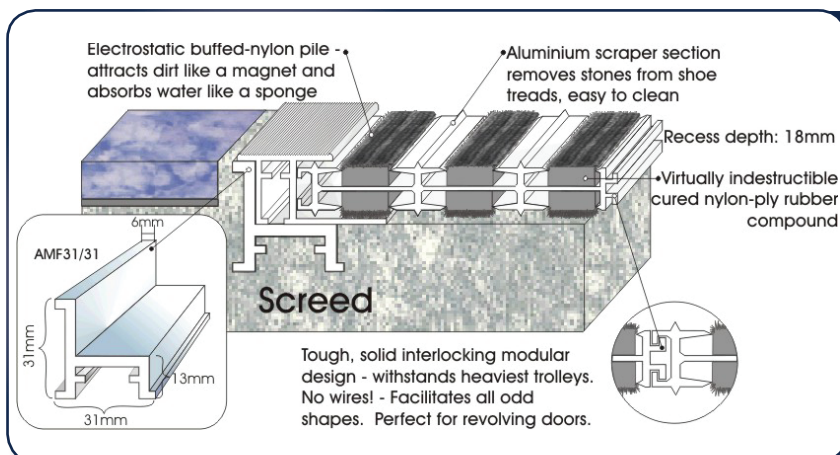

Mat-Lok Reversible Active 6 year guarantee

- Ultra Heavy-duty, premium quality static aluminium mat.
- Crush-proof nylon carpet rubber insert from recycled tyres.
- Suitable for heavy vehicle, wheeled trolleys and wheelchair traffic.
- Safe for high heeled footwear (heelproof).
- Dirt-scraping raised section.
- No wires; can be shaped to any form.
- Unlimited foot, shopping trolley and wheelchair traffic.
- Indefinite lifespan, guaranteed for six years.

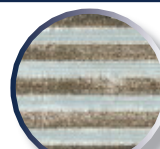

Product height: 18mm

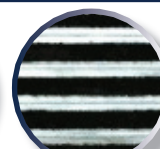

Weight: 18kg/m²

External/Ramp use

Effectiveness Rating:

Dirt Attraction: N/A | Absorption: N/A | Durability: 10 | Cleanability: 10

Mat-Lok Reversible Passive 6 year guarantee

- Ultra Heavy-duty, premium quality aluminium scraper mat.
- Non-slip, crush-proof recycled tyre rubber insert - Eco friendly.
- Effectively scrapes dirt and loosens caked mud.
- Suitable for heavy vehicles, wheeled trolleys and wheelchairs.
- Excellent for ramps, safe for high heeled footwear (heelproof).
- Dirt-scraping raised section.
- No wires; can be shaped to any form.
- Unlimited foot, shopping trolley and wheelchair traffic.
- Indefinite lifespan, guaranteed for six years.

Product height: 18mm

Weight: 18kg/m²

2 | Decramat-Industrial Mats

Traffic Category: Extra-Heavy Duty

Unlimited foot, regular Shopping Trolley & Wheelchair traffic.

Suitable for 2 million+ monthly foot count

Safe/suitable for:

Internal/Undercover use – mat-lok Aluguard Active Barrier Mats

Used in Chain Stores, Shopping Centres, Banks, Hotels, Office blocks and elegant homes, where it is important to stop dirt and wet feet from entering.

Effectiveness Rating:

Dirt Attraction: 10 | Absorption: 10 | Durability: 10 | Cleanability: 10

mat-lok Aluguard Active 4 year guarantee

- Ultra Heavy-duty, premium quality static aluminium mat.
- Crush-proof nylon carpet rubber insert from recycled tyres.
- Suitable for heavy vehicle, wheeled trolleys and wheelchair traffic.
- Safe for high heeled footwear (heelproof).
- Dirt-scraping raised section.
- No wires; can be shaped to any form.
- Unlimited foot, shopping trolley and wheelchair traffic.
- Indefinite lifespan, guaranteed for six years.

Product height: 10mm

Weight: 11kg/m²

External/Ramp use – mat-lok Aluguard Passive Scraper Mat

External Use

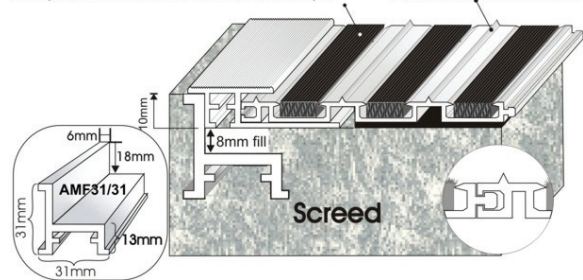

In areas exposed to rain it is advisable to have a twin-pronged approach by eliminating mud and stones on the outside before drying feet off on the inside of buildings. A combination of mat-lok plain rubber insert scraper mats on the outside together with mat-lok buffed pile barrier mats on the inside offers a uniform solution.

Ramps

Split-level areas using ramps can be a danger for people pushing heavy trolleys or using wheelchairs. This is where a proven non-slip surface is required. Mat-lok rubber scraper mats offer an ideal, permanent, non-slip safety surface for such instances.

Tough, non-slip nylon reinforced tyre rubber wiper sections to scrape off mud. Excellent for wheelchairs and ramps.

Aluminium scraper section - removes stones from shoe treads

Effectiveness Rating:

Dirt Attraction: N/A | Absorption: N/A | Durability: 10 | Cleanability: 10

mat-lok Aluguard Passive 4 year guarantee

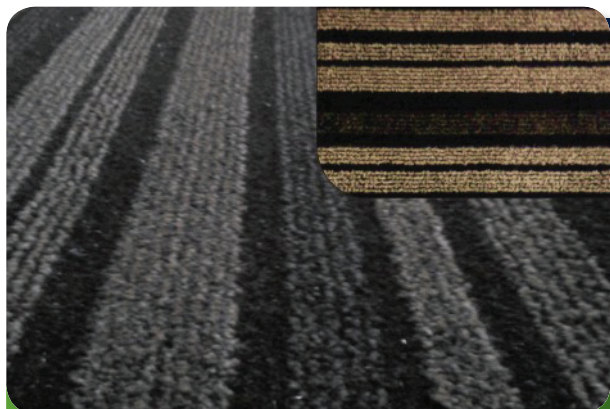

- Extra Heavy-duty, premium quality aluminium scraper mat.
- Non-slip, crush-proof recycled tyre rubber insert - Eco friendly.
- Effectively scrapes dirt and loosens caked mud.
- Suitable for heavy vehicles, wheeled trolleys and wheelchairs.
- Excellent for ramps, safe for high heeled footwear (heelproof).
- Dirt-scraping raised section.
- No wires; can be shaped to any form.
- Unlimited foot, shopping trolley and wheelchair traffic.
- Indefinite lifespan, guaranteed for six years.

Product height: 10mm

Weight: 11kg/m²

Traffic Category: Heavy Duty

Effectiveness Rating:

Dirt Attraction: 10 | Absorption: 10 | Durability: 10 | Cleanability: 10

Triple Active Mat

- Heavy-duty, premium quality.
- Effectively scrapes dirt and wipes moisture.
- Suitable for wheeled trolleys.
- Safe for high heeled footwear.
- Triple action: Scrape, Brush, Absorb
- Static dirt attraction properties.
- Cut pile for easy cleaning

Colour: Anthracite, Cappuccino

Product size: 1 500mm x 900mm **or** 1 800 mm x 1 200mm edged

Recessed mats fit to any size of recess

Total height: 10mm

Weight: 3.8kg/m²

Backing: Flexible PVC Rubber **Maintenance:** Daily Vacuuming

Effectiveness Rating:

Dirt Attraction: 10 | Absorption: 9 | Durability: 10 | Cleanability: 10

Nylon Active Mat

- Heavy-duty, premium quality.
- Actively attracts dirt and absorbs moisture.
- Suitable for wheeled trolleys.
- Safe for high heeled footwear.
- Static dirt attraction properties.
- Cut pile for easy cleaning
