about our buisness

BECAUSE YOUR COMFORT IS OUR PRIORITY

Granric Insulation (Pty) Ltd, is a company whose main focus is energy efficiency.

Granric MBI (metal building insulation) complies with all relevant standards and regulations set out in SANS 204 and SANS 10400-XA

Grant Richardson, Director of Granric Insulation and Vice-Chairman of the Thermal Insulation Products & Systems Association of Southern Africa (TIPSASA)

Granric MBI contributes to indoor comfort and energy savings by reducing heat loss and gain due to its inherent insulation properties," states Richardson.

GRANRIC ACCOUSTIC LINER

GRANRIC FLEXIWOOL

GRANRIC FRK Duct Insulation

GRANRIC CAVITY Insulation

EPS

Our product range is suited for both residential and commercial application

Manufactured from high quality non-combustible flexible Glasswool insulation with an inert binder, which makes the product lightweight, safe and resilient.

Granric MBI

Foil/White bulk Metal Building Insulation

Foil: The overall classification of this product in terms of the SANS 428 specification is:

- Non-combustible - A*
- Class A/ A1/ 1*

White: The overall classification of this product in terms of the SANS 428 specification is:

- Non-combustible - A*
- Class A/ A1/ 1*

- Lifelong energy savings
- Long product life - will not readily age
- Maintenance free
- Made to size to reduce wastage
- Significantly for high humidity applications
- Compression packed - to reduce volume and optimise transport and storage
- Excellent thermal and acoustic properties
- Helps to prevent condensation

Is a flexible Glasswool insulation blanket, covered with an acoustically porous, black woven glass cloth on the air stream surface.

**GRANRIC GLASSWOOL
ACOUSTIC LINER**

Non-combustible (SANS 10177 Part 5)

- Durable product (long lifespan)
- Easy to use
- Lifelong energy savings
- Lightweight (quick and easy installation)
- Maintenance free
- Minimal air friction while optimising free duct area
- Non-combustible (fireproof)
- Reduces energy costs
- Reduces noise
- Safe
- Will not erode or release fibres into the air stream under normal operating conditions

Is manufactured from high quality non-combustible flexible Glasswool with an inert binder which makes the product lightweight, safe and resilient.

Granric Flexiwool

Acoustic & Thermal Glasswool Ceiling Insulation

- Easy to install due to its light weight

- Energy savings that will last a lifetime

- Excellent acoustic & thermal properties

- Transport & storage is optimised through its compression packaging

- When used in combination with already installed ceiling insulation, as a top-up, customers can reach the new building requirements

Tested to SANS 10177 Part 5. Non-combustible.

FRK Duct Insulation is manufactured from a high quality, non-combustible Glasswool insulation with an inert binder. Granric FRK Duct Insulation is faced on one side with a reinforced foil.

**GRANRIC GLASSWOOL
FRK DUCT INSULATION**

- Can be used in a high humidity environment
- Condensation control
- Durable product with long lifespan
- Lifelong energy savings
- Lightweight for quick and easy installation
- Non-combustible
- Reduces energy costs
- Reduces noise
- Safe and easy to use

The overall classification of this product in terms of the SANS 428 specification is:

- Non-combustible
- Class A
