## SLOP HOPPERS

Slop Hopper (Model SH)

Slop Hopper with lid (Model SHL)

## Slop Hopper Model SH or Model SHL

### Standard Features

- Grade 304 (18/10) stainless steel 1.2mm gauge
- 100mm splashback to back and sides
- Hygienic and rigid construction
- Sturdy hinged bucket grid
- The outlet is designed to suit a standard 110mm PVC or cast iron "P"-Trap
- Removable strainer grid to prevent blockage as standard
- Optional hinge lid (Model SHL)

### Specifications

#### Standard Flushing Method using Flush Valve

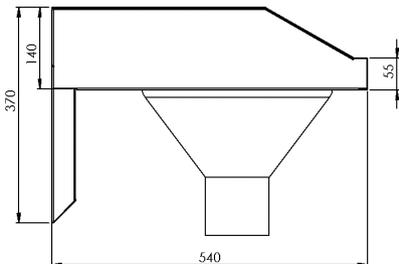

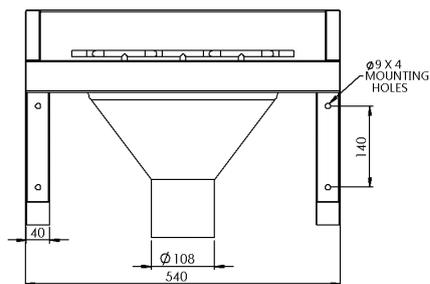

Mac-Care model SH or model SHL (please specify) Mac Care Code (please specify) manufactured from grade 304 (18/10) stainless steel 1.2 mm gauge with 100mm high integral splashback to the rear and both sides. The cone to have an integral flushing rim and a 110mm waste outlet for connection to P- or S-trap. Outlet to be fitted with removable strainer grid to prevent blockage. Inlet to be fitted with a 38 x 250mm long vertical flush pipe to facilitate fitting of a standard flush valve. The unit to be fitted with a hinged bucket grid manufactured from 10mm-diameter grade 304 (18/10) stainless steel round bar complete with two 40 x 40mm square stainless steel wall mounting gallows brackets. Unit to be fixed to wall 600mm from the top of the front apron to the finish floor level with 4 off anchor bolts. Cobra model COB-FM1.000 (please specify) flush valve. Manufactured by Mac Brothers Cape Town.

#### Optional Flushing Solutions

Flushing options include Cobra model FM 1.000 - 35mm water supply flush valve or Cobra FJ 2.000 - 20mm water supply flush valve and a Cobra FJT 1.2 straight flush pipe connected to CP on brass adaptor. (Flushvalves elsewhere measured)\* The Slop Hopper flushing valve optional. High level cistern: available upon request.

Note\*: Plumber to check on water flow and pressure requirements.
