Marley Pipe Systems serves the key market segments of the plumbing and construction as well as the civil, mining, irrigation and industrial industries, primarily in South Africa, but also supplying into Africa, the Indian Ocean Islands, Europe and Australia.

Marley Pipe Systems has manufacturing facilities at Nigel in Gauteng as well as at Port Shepstone in KwaZulu-Natal. The distribution network encompasses 11 branches around the country as well as sales offices in Namibia and Botswana, coupled with an active export division selling into Africa, the Indian Ocean, Europe and Australia.

Marley Pipe Systems (Pty) Ltd is proud to be independently verified by Emex as a Level 6 B-BBEE (Broad-Based Black Economic Empowerment) Contributor with a 60% B-BBEE Procurement Recognition.

ENVIRONMENTAL POLICY

Marley Pipe Systems is dedicated to aligning its activities with an environmental policy that undertakes to reduce its effect on the environment, including where its products are sourced, manufactured, used and disposed.

Marley are committed to:

- Improving our understanding of the effects Marley may have on the environment and looking to minimise these impacts
- Ensuring that all staff are aware of the legal requirements regarding the discharge of waste material
- Eliminating waste of any sort in our business in terms of materials, energy inputs and process
- Promoting the recycling of materials within the manufacturing and office situation
- Guaranteeing our products are free of lead and plasticisers
- Benchmarking our performance against similar companies externally and within the Aliaxis Group
- Complying with all the appropriate regulations and standards, and ensuring we have the necessary statutory licences

Vision

To become the preferred and most respected distributor and manufacturer of quality plastic pipe systems in sub-Saharan Africa.

Purpose

To provide reliable, quality plastic pipe solutions as well as superior service and added value to benefit Marley, its employees and other stakeholders.

Values

- Integrity
- Honesty
- Passion
- Commitment
- Reliability
- Respect
- Professionalism
- Ethics

OUR COMMITMENT TO QUALITY

Marley Pipe Systems is on the move to offer tremendous value to the plumbing industry through first-rate products, service delivery and hands-on training sessions. Marley implements the ISO9001 Quality Management System, an international tool used to keep all functions within Marley Pipe Systems in check in terms of consistently ensuring that quality products and superior services are supplied to the customers as a whole package.

Marley abides by the set SANS specifications and in some cases, exceeds these requirements. As an example, the Marley Pipe Systems testing frequencies are higher than those set out in the SABS mark scheme documentations, allowing Marley Pipe Systems to pick up non-conformities faster, and effect corrective action promptly and efficiently. This ensures that we constantly know the status of our products' quality and the effectiveness of the production process.

The result: CUSTOMER SATISFACTION.

Marley Pipe Systems bear the stamp of approval with various SABS (South African Bureau of Standards) marks on our products. Our Equator indoor hot and cold water systems are now even more sustainable. We have recently received official confirmation that we are authorised to use the SABS mark on locally assembled Equator fittings.

Our Value to You

For more information and product enquiries visit www.marleypipesystems.co.za

Marley Pipe Systems' website is designed to bring you a more informative, user-friendly and value-added interactive browsing experience, empowering you to engage with us like never before.

The new Marley website contains a host of new features that will allow you to benefit from technical information, product support and the latest news from Marley, all available at the click of a button.

- Navigate through a wealth of information including product catalogues, schematics, downloads, FAQs and more.
- Locate your nearest stockists of the Marley range.
- Select your profile type to receive customised information suited directly to your needs.

Interactive 3D House

A valuable addition to the Marley website is the Interactive House.

Navigate through our realistic 3D-rendered house to interactively view the various product ranges that Marley has to offer.

Each product has been individually modelled to show best practice of installation and application to help you find exactly what you're looking for.
