

SHAPING DREAMS

DESIGN GUIDE

Like a dream, Avonite® Solid Surface can exist in virtually any shape or form. Our 100% acrylic and Studio Collection® of specialty blend solid surface products are not bound by straight lines or flat surfaces. Instead, we offer a dazzling array of colors, patterns and designs that can be applied to vertical as well as horizontal surfaces. Our sheets can be applied in straight or curved lines, they can be thermoformed into a myriad of shapes, or they can be backlit for stunning visual effect. So on your next project, feel free to dream. And let Avonite® shape your bold

STUDIO COLLECTION®

Our open mold technology brings solid surface to life. Inspired by glass, natural stone and precious metals, and offering similar richness and depth, the Studio Collection® of specialty blend solid surface features avant-garde and design-savvy product lines with virtually endless possibilities of colors, patterns and aesthetics.

DREAM IN COLOR.

DREAM “ON BUDGET.”

100% ACRYLIC SOLID SURFACE

Avonite® brings wider widths, longer (or shorter) lengths and different thicknesses, which allow you to push the boundaries of solid surface tradition: what was once only dreamed of can now be realized. Enduring beauty and infinite creativity delivered with great value.

DREAM BIG. DREAM SMALL. DREAM ANY SIZE.

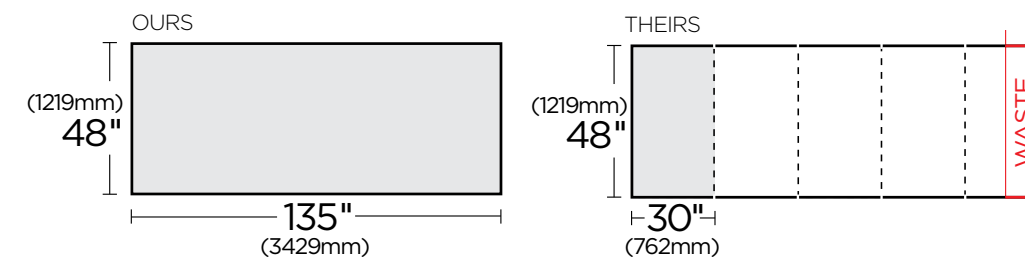

SIZE MATTERS

Order just the lengths and widths you need – reduce waste, cut costs, installation time, and do so much more.

RIGHT-SIZED SHEETS

An integral part of our commitment to Sustainable Design. Optimize sheet size selections, cut costs, save time, and reduce waste by actively reducing scrap and landfill at the source.

Avonite® offers 100% acrylic solid surface sheets in widths ranging from 27" (686mm) to 60" (1524mm) and lengths from 72" (1829mm) to 204" (5182mm).

BUY THE LENGTH

A PASSION FOR CARE. AND STYLE.

When hygiene and the ability to withstand constant and rigorous cleaning are a must, Avonite® non-porous surfaces deliver. Whether horizontal or vertical, flat or curved, inconspicuous or simply nonexistent seams, Avonite® Surfaces are hygienic, renewable, easy to clean, and they offer great style and great value.

Avonite® Wet Wall and complete shower systems feature a line of colors, patterns and accessories that can be tailored to your (and your clients') design needs, helping create beautiful, hygienic, durable, and cost-efficient solutions.

Bio-Lok™ surfaces are naturally impervious to the penetration and subsequent proliferation of undesirable microorganisms without the use of added chemicals, providing hygienic, easy to clean surfaces valued by healthcare facilities globally.

SUSTAINABLE. RESPONSIBLE.

At Aristech Surfaces LLC, we are committed to the safety and health of our employees, contractors, customers, and neighbors, and to the sustainability and protection of the environment. We endeavor to employ relevant practices that reduce our environmental footprint while promoting an environmentally responsible culture with employees and suppliers alike.

GREEN. FRIENDLY.

From Recycled products, to Right-Sized Sheets and more, Avonite® brings beauty to your project while respecting and maintaining Earth's beauty as well.

CERTIFIED LEADER.

Avonite® Surfaces were the first to achieve certification by Scientific Certification Systems (SCS) – the gold standard for environmental content and practices. Our Studio Collection® Recycled products group contains a minimum of 40% pre-consumer content, while our Foundations® recycled products contain 13% or 16% recycled content. Avonite® also received an A+ for VOC emissions based on French regulation DEVL1101903D.

GREENGUARD CERTIFIED.

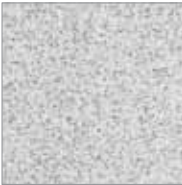

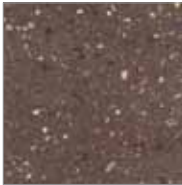

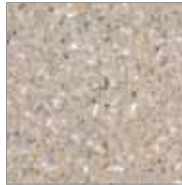

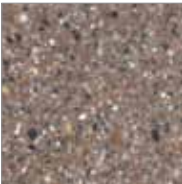

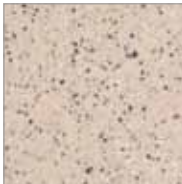

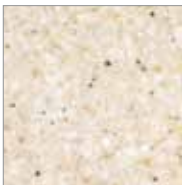

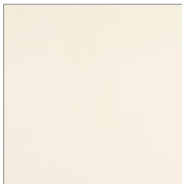

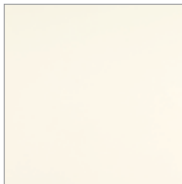

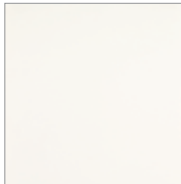

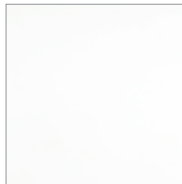

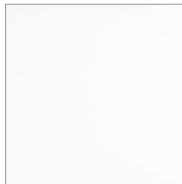

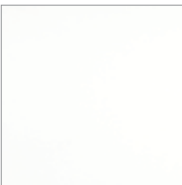

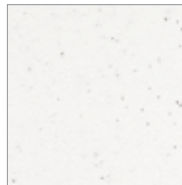

Avonite® earns Indoor Air Quality credits for low-emitting materials. Our Solid Surface adhesives, including Ultra-Bond G adhesives, are Greenguard Certified.

RESIST BACTERIA, NATURALLY.

Avonite® non-porous Bio-Lok™ surfaces are naturally impervious to the penetration and subsequent proliferation of microorganisms. Hygienic, durable, and easy to clean without added chemicals, our surfaces ensure that unwanted microorganisms have nowhere to hide.
