

INTRODUCTION

If you've been involved with the building and infrastructure industry, you'll be more than familiar with the brands Technicrete, Rocla and Ocon. The great news is that these three key players have joined forces and merged into a new and exciting infrastructure group of companies, which is now owned by RMB Ventures, Capitalworks, Pan African Group and senior executives within the companies.

The merger took place at the end of 2013 when Murray & Roberts, previous owners of these brands, adopted a different stance in engineering, mining and construction, and sold Technicrete, Rocla and Ocon. This is how the Infrastructure Specialist Group (ISG) was born.

VISION

ISG strives to be the leading supplier of innovative infrastructure products to the construction and mining markets in Southern Africa, creating value for all stakeholders.

VALUE STATEMENT

ISG is a market-driven group where design, engineering capability and manufacturing expertise are paramount.

OUR VALUES

The ISG values are the ultimate guide of our intent and actions. They align and unite all our people across our diverse operating platforms.

CARE

Care for our people by prioritising their safety and wellbeing above all else ensuring they have the necessary tools and training to carry out their work safely and effectively. Care for our customers and stakeholders through striving for delivery excellence, on time and in budget. Care for the environment by minimising the potential negative impacts of our activities.

INTEGRITY

Being consistent in our actions and adhering to our core values. Conducting our business undertakings honestly, openly, directly and ethically.

RESPECT

Appreciating the environment in which we operate. Acknowledging others' differences. Treating each other with trust and dignity.

ACCOUNTABILITY

Taking responsibility for our actions. Being transparent in keeping record of our activities and in our disclosure. Being answerable for our actions.

COMMITMENT

Our belief in what we do. Hard work and dedication to the tasks undertaken. Ensuring we deliver on what we have promised.

ABOUT THE THREE BRANDS

TECHNICRETE

This well-known leader in manufacturing precast concrete products in South Africa's mining and construction industries began in 1968. With its Head Office in Roodepoort, Johannesburg, Technicrete has factories right across South Africa. Product information, technical guidance and assistance are always readily available from any of Technicrete's establishments, nationwide.

ROCLA

With over 95 years of rock-solid experience under its belt, South Africa's leading manufacturer of precast concrete products for infrastructure, produces high-quality pipes, culverts, manholes, poles and related products at customers' unique requests. Rocla also holds a Head Office in Roodepoort with a rich network of factories across South Africa, Namibia and Botswana.

ROCLA

OCONBRICK

When it comes to the manufacturing of high-quality clay bricks, this groundbreaker does not go by unnoticed. Having sturdy roots that stem as far back as 1982, Oconbrick's Head Office and factory are being run out of Meyerton in the Vaal Triangle and deliver products throughout South Africa to a varying client base. From key construction and property development companies to smaller builders, Oconbrick is a brand with meaning.

A GREATER PRODUCT RANGE

Through our amalgamation, you will be pleased to know that all of the following premium products are readily available under one roof.

Technicrete's product range offers: Paving, Roof Tiles, Masonry, Kerbs, Retaining Walls, Erosion Protection Blocks, Precast Products, Prebagged Concretes, Shotcretes, Grouts, Thin Skin Liners (TSL) and Designer Support Packs.

Rocla's product range consists of: Pipes, Culverts, Poles, Road Barriers, Manholes, Sanitation, Wingwalls, Rainwater Harvesting Systems, Alfabloc Walling, Concrete Cabins, Oil Separators and Bespoke Products.

Ocon's product range features: Clay Stock Bricks (NFP – Non-Facing Plaster) as well as Semi-Face Bricks (FBA – Face Brick Aesthetic).

HEALTH, SAFETY AND THE ENVIRONMENT

At ISG we recognise the need to provide employees with a safe and healthy working environment and are committed to this end by practising the **STOP.THINK.ACT.24/7** philosophy, which has been adopted at all our sites, with the aim of achieving zero harm. We are very proud of the high standard maintained at our operations and urge all contractors and visitors to comply with our site rules and regulations.

ISG is certified on OHSAS 18001:2007 standards and is also compliant with the ISO 14001:2004 requirements.

STILL BIG ON QUALITY AND SERVICE

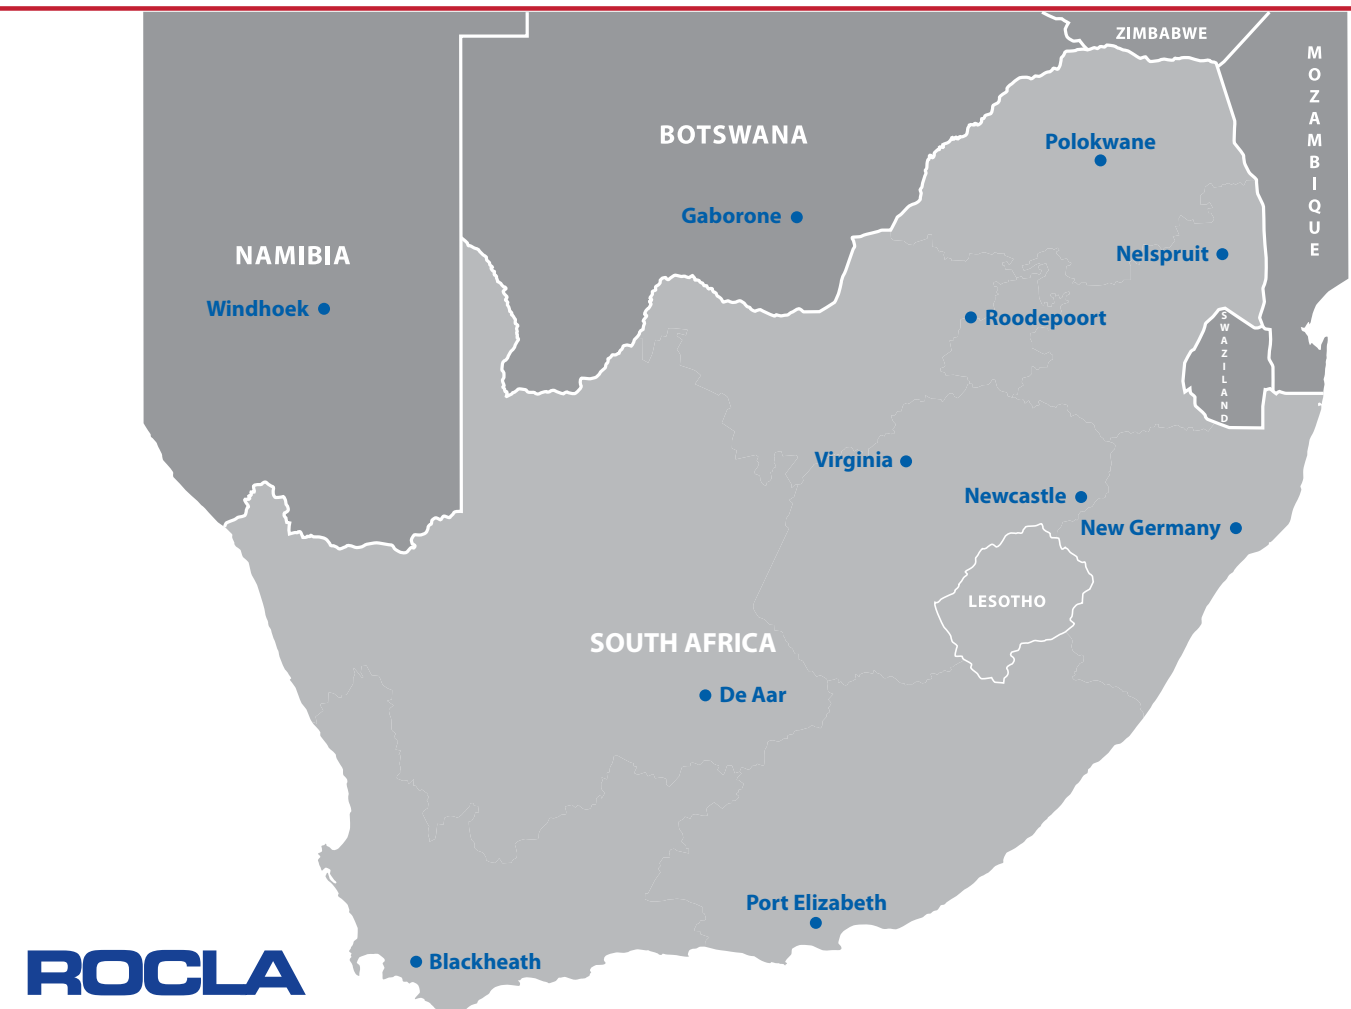

Some things will never change, like the rock-solid commitment of Technicrete, Rocla and Ocon to supply the highest-quality products and service excellence. Both Technicrete and Rocla products proudly carry the South African Bureau of Standards (SABS) mark and completely adhere to the ISO 9001:2008 Quality Management System. They are also fervent members of the Concrete Manufacturers Association (CMA) of South Africa – an association promoting the quality of manufacture and appropriate technical application of concrete products.

Oconbrick also upholds an excellent reputation of providing the highest-quality and cost effective products to the construction industry. Working towards attaining their ISO 9001:2008 certification in the near future, Oconbrick is a fully committed member of the Clay Brick Association (CBA) of South Africa – an association maintaining top standards in clay brick usage.

A BRIGHTER TOMORROW

We are extremely proud to be a Southern African company. This fuels our devotion to the sustainable development of our region and its people. By ensuring that our infrastructure and high-quality products make a meaningful contribution to the lives of the people of Southern Africa, we continue playing our part in creating a better future.
