## MAINTENANCE

Enhance the performance and appearance of your carpet by following these steps: • Use quality Dirt Off walk mats. • Vacuum thoroughly and frequently. • Remove spills and marks immediately. \* General clean by a SETA Qualified cleaner.

## HELPFUL HINT

Whilst the light colours in the range are extremely attractive, they are high maintenance. They show soil quicker than dark colours and need frequent cleaning. We accept no liability on soiling, as this is maintenance related and not a manufacturing defect.

## BILL OF QUANTITIES

## Klassikos

The Klassikos range offers a rival to carpet tiles with flexibility in design encompassing 3D texture across several weaves and tones, ensuring a practical and exciting flooring solution for any commercial area.

## Zoiros

Zoiros, the Greek word for 'vibrant' perfectly describes this collection. All designed with the same weave, the colours in the Zoiros range mix and match with each other to create bright interiors, or they can be used to create colourful spot tiles when mixed with the Klassikos range. The Zoiros colours also coordinate with the Sentoni Stripe range, facilitating the creation of zones in the commercial environment.

## MAINTENANCE

Enhance the performance and appearance of your carpet by following these steps: • Use quality Dirt Off walk mats.

• Vacuum thoroughly and frequently. • Remove spills and marks immediately. \* General clean by a SETA Qualified cleaner.

## HELPFUL HINT

Whilst the light colours in the range are extremely attractive, they are high maintenance. They show soil quicker than dark colours and need frequent cleaning. We accept no liability on soiling, as this is maintenance related and not a manufacturing defect.

## BILL OF QUANTITIES

Broadloom: FIBREGRASS 158, 173 and OUTDOOR made from 100% PFX Stain Shield Staple UV Fibre in (colour name), by Van Dyck Carpets, laid in accordance with the code of practice for the installation of textile floor coverings (SANS 10186).

# Eco-lay

ADD A GREEN TOUCH TO THE OFFICE WITH OUR ENVIRONMENTALLY FRIENDLY UNDERLAYS: ECOLAY 2,5 MM, 3 MM, 5 MM AND 6.5 MM

## BENEFITS OF ECO-LAY

- Environmentally friendly and fully RECYCLABLE
- Increases floor covering lifespan
- Highest quality recycled rubber
- 2m wide for lower wastage
- Unaffected by moisture
- Thermal Insulation
- NON-absorbent & Rot resistant
- NOT air filled so NON- collapsing
- Excellent rebound
- Anti-fatigue
- Anti-microbial
- High performance & appearance retention
- Conforms to local and international fire and compression tests
- Ideal for Stairs
- Comfort Underfoot
- Absorbs Noise
- Contains Anti-Static properties
- Protects Floor Coverings
- Saves Energy
- Under Carpet Heating
- Suspended Wood Floors - Seals the floors preventing dust flow
- Improve Vacuuming
- Anti-Allergenic
- 10 Year Guarantee

# EnviroBuild

Material composition	100% South African Recycled motor vehicle and truck tyres, Polyurethane binder, iron oxide pigment.
Source of materials	All Materials are locally sourced, making EnviroBuild products proudly South African.
Surface texture and decoration	Crumb Rubber moulded texture with various decorative patterns. Products reduce sound of pedestrian and vehicle traffic and have a high safety factor compared with conventional products.
Weight	± 1100kg/m <sup>3</sup> , depending on hardness(density).
Hardness	Various, depending on application requirements.
Colours	Black, Grey, Redwood, Brown, Green, Blue
Maintenance	Recycled rubber paving is extremely tough and resilient to damage and stains. EnviroBuild paving and flooring products has virtually zero water or chemical absorption, resulting in no oil absorption from leaking vehicles, accidental spills, etc. These factors make EnviroBuild products very easy to maintain. Simply hose or sweep off dirt and dust. For more aggressive dirt, simply clean with a cloth/mop dipped in a soapy water mixture or use a high pressure cleaner. Damaged pavers can easily be lifted/extracted and replaced.
Modularity	EnviroBuild products are interlocked, lap seamed or interconnected and can be opened for tree root maintenance, seismic adjustment, side walk relocation, etc.

All products are available in the following colours:

Black	Grey	Brown	Green	Blue	Redwood
-------	------	-------	-------	------	---------

A variety of other colours and speckled combinations can be made on request depending on the order volume.

Innovative recycled products that are 100% recyclable at the end of their lifespan.
