

THE **BIBO** EXPRESS²

Your faster, better, bigger
Unlimited boiling water source

The BIBO express² - wall mounted instant water boiler

Have we met before?

If not, let us tell you a bit more about us. At BIBO, we come to work every day with a mission. We aim to make life simpler, healthier, classier and more environmentally friendly. And with our unique range of BIBO products, we achieve it and we're evolving every day.

With unparalleled innovation, BIBO brings you a careful selection of cutting-edge water products for homes, office, canteens and pause areas; and we happen to offer unsurpassed service while doing just that.

And on that note...

Let us introduce you to the latest and sleekest addition to BIBO's repertoire, the BIBO express² - your faster, better, bigger unlimited boiling water source.

The BIBO express² - wall mounted instant water boiler

A water boiler like no other

If you were already a fan of it's predecessor, the original BIBO express, get ready to be wowed 2x more. The BIBO express² is 2x faster, sleeker and bolder than ever before and its perks remain.

Instant

Never wait for water to boil again. With the BIBO express², you can have boiling water from start to stop at the touch of a button. The secret to this innovation is that the BIBO express² has eliminated an internal hot tank & instead boils water instantly as it runs through the machine, saving you time, preserving energy & preventing water waste.

Unlimited

The BIBO express² connects to the water mains for endless water supply. As the BIBO express² boils water instantly, it can withstand high usage, effortlessly offering endless boiling water for homes, offices, pause areas, canteens, waiting rooms, or anywhere really, at 2x more speed than its predecessor.

Green

Not only does cutting-edge design of the BIBO express² look good, it also ensures that you'll be cutting power bills too. The BIBO express² is unique to the market in that it has eliminated the need for an internal hot tank. Rather it only boils the required amount of water instantly as it dispenses. That means there is zero waste of water & power with this energy-efficient & eco-friendly solution.

Safe

The BIBO express² is designed with a non-drip function, which has loads of benefits, but also ensures there is no leaking of boiling water. Unlike traditional levers & taps, the BIBO express² has a lock key that prevents boiling water from pouring unless you choose to unlock it.

Any wall, anywhere

One of the unsurpassed benefits of the BIBO express² is that you can place it anywhere. Its non-drip function means there is no need for it to be placed on top of a sink or drainage system. It is simply wall-mounted & easily installed for your convenience.

Compact and damn good looking

With the BIBO express, less is more; it is compact, sleek & chic, & the ideal statement piece for any space.

Dimensions:

360mm x 550mm x 88mm

Colours:

Designed for easy installation

The BIBO express² often takes center stage in kitchens, offices and pause areas and fast becomes the most loved and used appliance. Thanks to it's non drip function, the BIBO express² does not need to be installed over a sink or drainage system but rather in the preferred spot. While BIBO does offer an experienced installation team for any sized project, the BIBO express² comes with a self installation kit including all the necessary supplies making its installation as easy as one, two, three.

Self Installation Kit

Hanging board

Quick fit stem elbow

Connecting T

Packing screws

Plastic anchors

Steps for self Installation

Your BIBO express² needs to be installed in a cool, dry place and kept away from any heat source and direct sunlight.

Your BIBO express² needs to be installed so that it sits at least 10cm away from any other object.

You will need an electric power supply. Your BIBO express² comes with a standard 16amp power supply plug (3 pin plug).

Your BIBO express² needs to be installed indoors and vertically wall mounted.

There will need to be a suitable mains cold water supply nearby.

As the BIBO express is a boiling water appliance, please ensure that it is installed out of children's reach.

Now for the technical stuff
