

Somfy® Curtain Tracks

Somfy® Curtain Tracks are a premium European product available with either 60kg or 35kg 220v motor, or a 45kg rechargeable battery powered motor. Brackets are available to suit Top Fix, Face Fix or Double Face Fix installation applications. The track is available in both GLIDE and RIPPLE options. The Ripple Runners are available in a variety of fullness options. You can choose between the press stud and snap tape or hook tape options. The master carrier is driven by a low friction rubber belt, and different arms are available for the master carrier to suite your application.

FEATURES:

- Heavy duty, High performance design
- Quiet operation
