

moving ideas

Blum stays in motion
to move ideas forward

Quality of living

Convenience made easy

We offer solutions that meet the latest design trends, are ergonomic and maximise storage space. Our products are designed to help our customers implement their ideas. With showrooms nationwide, we invite you to experience our products and be inspired by our quality design solutions.

Inspiration

Your curiosity drives us on

We monitor worldwide trends, carry out our own research and want to share our findings with you. We have developed various workshops, tailored to meet the needs of our industry from discussing South African industry standards, to design guidelines and aesthetics. Whatever your design philosophy, you will find inspiration at our workshops.

Range

Implementation of furniture ideas

You need functional fittings solutions to be able to implement clever design ideas. We offer a wide range of products, the right services and personal and comprehensive consultation. Our range includes Fittings systems (lift systems, hinges, box systems, runner systems); Inner dividing systems; Motion technologies and assembly devices.

Services

Support for your work processes

It's important to have innovative and top quality products. But if we want to build strong partnerships with customers, it's equally important to have services that make their lives easier. Through conversation we find out what determines quality, how time can be saved and collaboration further optimised - this is where our services come into play. Technical installer training is offered by Blum.

Quality

Quality tailored to your needs

Our goal is to ensure that our fittings systems provide comfort and function to furniture buyers for as long as the furniture is in use. All Blum products are engineered to provide for problem-free-use of the furniture during its lifetime, which is about 20 years. We achieve this goal by using the strictest internal guidelines that are the basis for our ISO 9001 quality management system.

Innovation

How do we shape the trends of the future today?

Every trend is an opportunity to be one of the first in the market. With innovative products that are state of the art and with new services, we want to enable our customers to meet furniture trends and optimise manufacturing processes.

Trust

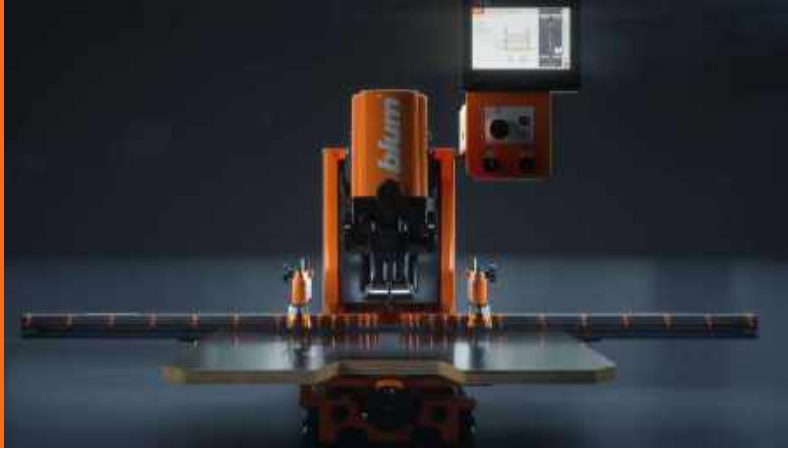

We build trust by assuming responsibility

We believe that responsible ecological behaviour has long-term economic benefits. That's why we implement environmental protection measures in as many business fields as possible. Blum operates in more than 120 markets globally. Blum South Africa (Pty) Ltd is a subsidiary of Blum Austria (our Global headquarters).
