

Prevent the spread of walked in bacteria, viruses and infectious microorganisms.

Entra-Clean HygienePlus

The washable doormat that actively kills germs

- Removes visible dirt and kills invisible microbes.
- HygienePlus means the mat is treated with the EU-registered biocide, BI-OME registered with OEKO-TEX® an antimicrobial and virus reducing technology. BI-OME works by effectively killing bacteria when contact is made with the mat.
- Although the treatment is a highly effective antimicrobial agent, it does not cause any skin irritations.
- A new concept in entrance matting.
- Improve floor level hygiene around your business – important whilst fighting Covid-19 and beyond.
- More sustainable – less frequent washing required, and on lower temperatures.
- Free of metals.
- Fully machine washable – with no reduction in active cleaning power for the life of the mat.
- Suitable for all facilities, in particular offices, hotels and leisure, retirement homes and healthcare settings.
- Reduces annoying odours caused by bacteria and fungi.

Colour	Mat Size	Part Code
Anthracite	0.6m x 0.9m	EC010001
	0.8m x 1.2m	EC010002
	0.9m x 1.5m	EC010003
	1.2m x 1.8m	EC010004
	1.2m x 2.4m	EC010005
Grey	0.6m x 0.9m	EC060001
	0.8m x 1.2m	EC060002
	0.9m x 1.5m	EC060003
	1.2m x 1.8m	EC060004
	1.2m x 2.4m	EC060005
Brown	0.6m x 0.9m	EC050001
	0.8m x 1.2m	EC050002
	0.9m x 1.5m	EC050003
	1.2m x 1.8m	EC050004
	1.2m x 2.4m	EC050005

Elimination of bacteria

Cleanliness on a microbial level

Entra-Clean HygienePlus

A Revolution in Floor-Level Cleanliness

COBA Africa is proud to present Entra-Clean **HygienePlus** - our first doormat with active germ-killing technology built-in. A ground-breaking new antimicrobial treatment makes this product much more than simply another entrance mat.

How does the new Entra-Clean Hygiene+ work?

Hygiene+ is a game changer. In addition to the high quality materials and construction, Entra-Clean Hygiene+ is treated with BI-OME, an antimicrobial and virus reducing technology. Even if you are not actively cleaning, the doormat remains clean on microbial level and the technology remains active throughout the lifespan of the mat.

What is BI-OME treatment?

BI-OME is a biocide agent that has a durable viral reducing effect on surfaces such as entrance mats. The treatment with BI-OME can reduce the viral activity of enveloped viruses in a time span of 2 hours, while the half life (time it takes for 50% of the viruses not to become infectious) is about 4 hours for untreated surfaces.

What happens if the doormat is cleaned or machine washed?

You can clean Entra-Clean Hygiene+ like any other doormat, you can even machine wash it. The treatment with BI-OME stays on the fibres and remains active, this means you can wash it on lower temperatures to save energy and still have a doormat that is clean on microbial levels.

BI-OME is a registered and tested treatment

The **BI-OME** treatment is registered with **OEKO-TEX®** to guarantee maximum consumer safety and BPR (PT2, PT7, PT9) registered with ECHA (European Chemicals Agency).

Benefits of a Hygiene+ treated doormat:

- Elimination of bacteria
- Cleanliness on a microbial level
- Reduced odour
- Possible reduction of viral activity of enveloped viruses
- Less water consumption, less frequent washing required
- Energy saving by washing on low temperatures
- Does not cause skin irritation
- Free of metals
- Permanent technology
