

Studiolok

Interlocking tiles for workplaces

- Easy DIY Installation.
- Manufactured Locally
- Popular low-cost flooring inside the house or office, playrooms, and garages.
- No adhesive is required (see installation tips).
- Made from recycled PVC – non-conductive and fire resistant.
- Do not expose to direct sunlight or extreme temperatures.
- Product Height: 6 mm.
- Strength designation: 4.6%.
- Our interlocking tile range should only be used on floor applications, if these tiles were to be used on walls or any other application, please consult an adhesive specialist to ensure that the correct adhesive is used for your installation. Always consult your Sales Account Manager to ensure this product can be installed on your specific site for the application you require.
