Little Falls Church, Roodepoort

Haleon GSK, Epping

Cubicle Solutions combine design flexibility with affordable costs by providing tailor-made cubicle systems for toilet, shower and change room applications. This is a modular system which is floor anchored with an overhead brace. It is extremely robust and hard wearing and most often used in commercial offices, public buildings, shopping malls, hospitals and sporting facilities. This application can be manufactured using various board types, as follows:

- **Compact High Pressure Laminate (CHPL)**
- **Compact Density Fibre Board (CDFB)**
- **Melamine Faced Particle Board (MFPB)**

Victoria Falls, Zimbabwe

Victoria Falls Container Cubicles

Cubicle Solutions toilet cubicles are suitable for any application even a well-designed container!

Images above show the container disguised by the design of the garden and entranceway. Inside shows a modern facility with our Cube Exclusive toilet cubicles in situ at The Lookout, Victoria Falls, Zimbabwe.

Karan Beef Canteen Tables and Screens, Balfour

Karan Beef Canteen Tables, Balfour

Interlocking student desks for team working at The Wykeham Collegiate School Pietermaritzburg

Gaansbaai Clinic, Gaansbaai

Blood Bank Labgrade Worktops, Kimberley

SPECIALIZED PRODUCTS

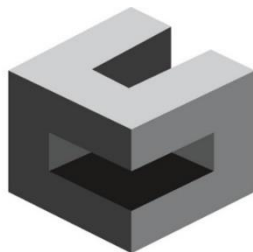

Over the years the Cubicle Solutions team have been asked to use Compact High Pressure Laminate in different applications.

With a clear concept and innovation, some of our unique products now include canteen tables, desk dividers and work top surfacing.

We are now suppliers of Laboratory Grade CHPL for all applications including university laboratories, chemical laboratories and medical laboratory facilities.

Interlocking student desks – A very unique desk combination allows for one student to work alone or for two or three to work together, for project work, by interlocking the individual desks.
