SPECIFICATIONS

- **Fitting material:** Steel with Opal Glass.
- **Lamp type:** Excluding 1 x E27 max 40W 230V.
- **Voltage:** 220V - 240V ~ 50Hz.
- **Protection against electric shock:** Class 1.
- **IP Rating:** IP 20 Dust Protected. Protected against solid foreign objects of 12.5mm Ø and greater. Not protected against water.
- Commercial / Domestic use.
- Not suitable for outdoor use.
- Not for use in areas exposed to moisture.
- Non Dimmable.
- **Maximum ambient temperature range:** 20°C - 40°C.
- **Dimensions:** (D)70mm x (Ø)300mm.

IMPORTANT SAFEGUARDS

C403 - attachments:

If the external flexible cable or cord of this luminaire is damaged, it should be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid a hazard. To ensure that you get maximum longevity and maximum use out of your luminaire, please observe the following safety instructions.

Electrical products can cause death, injury, or damage to property. Installation of the luminaire must be carried out by a qualified electrician, in accordance with SANS 10142. On completion of installation, ensure that the Certificate of Compliance is updated.

- Before connecting this luminaire, ensure that voltage indicated on the rating label corresponds with the mains voltage in your home.
- When changing the lamp, ensure that the power is turned off.
- This luminaire is checked in full for conformity to the quality standards and safety requirements.
- The manufacturer / supplier is not responsible for any damage of properties and persons, caused by the incorrect use or installation of the luminaire.
- Should you be unsure of how to install this luminaire correctly, please consult a professional electrician or your supplier for assistance.
- Ensure all items / components, threads and screws are tightly secured.

IMPORTANT:

- Tampering with this luminaire, i.e. using silicon sealers or incorrect cabling, will invalidate your warranty.
- When the protection glass is damaged, it should be replaced immediately. The luminaire must not be used without the protection glass.
- Please check whether the connection of the power cord is safe and reliable before installation.
- Always ensure that the mains supply voltage is correct.
- Always replace the lamp with one of an identical rating.
- Ensure that you do not place the luminaire near any combustible materials and / or surfaces.
- Choking hazard: May contain small parts. Keep away from children.

- Do not insert your fingers or any part of your body into the electrical contact and sockets of this product whilst it is connected to the electricity supply.
- Item may vary slightly from the picture on the carton.
- Coastal humidity may effect the longevity of the luminaire.
- Outdoor luminaires must be cleaned to prevent rust occurring.

INSTALLATION

- Switch the power supply off before commencing with the installation.
- This luminaire is only suitable for fixed mounting.
- Not for use outdoors or in areas exposed to moisture
- When drilling is required for fixing the luminaire to the required surface please ensure that no pipes or cables are within the drilling area.(1)
- Insert masonry plugs into the mounting surface. Test to ensure the mounting surface will hold the weight of the fitting.(2)
- Fix the clip into the mounting surface (3).
- Connect main supply into terminal block making sure all connections are tight.
- Connect main supply wires to the terminal block (A4).
- Fix the bracket into the mounting surface with self-tapping screws (B4).
- Make sure all the connections are tight.
- Fix the bulb (5) to the lamp holder.
- Fix the Lens to the lamp holder (6).
- Reconnect power supply.

CLEANING

- Before cleaning always ensure the power supply is turned off.
- Do not immerse the luminaire in water.
- No abrasive products, solvents, detergent may be used to clean this luminaire.
- Ensure that the fitting does not come in contact with corrosive chemicals, etc.
- Coastal areas ensure that the luminaire is cleaned fortnightly.
