

HIGH SECURITY
CERTIFIED BURGLARY,
FIRE AND EXPLOSIVE
RESISTANT VAULT DOOR

BOROX™ VAULT DOOR

BURGLARY, FIRE & EXPLOSIVE-RESISTANT
VAULT DOOR

KEY FEATURES

- The door consists of a door frame, grille gate and the main strong room door. A door-in-door option is available.
- The frame consists of a heavy box frame surround which is reinforced with special armour components. It is then integrated into the skin of the vault room thus completing the vault room framework.
- The door is Zinc Chromate rust resistant finished and with grey primer to allow for painting on site.
- The mechanically or electrically operated hinged grille gate provides further security to the main door.
- The main door is secured in the frame by 4-way moving bolt-work mechanisms.
- An emergency door with similar specifications to the main door can give access to the vault if the main door cannot be opened.
- The door can be prepared for use with an alarm system as optional.

BOROX™ VAULT DOOR
