

COMPANY PROFILE

2023

Makoro Tank Technologies (PTY) LTD is a Tank Manufacturing Company that was established in Makoro near Palapye Botswana in 2011. It is proud to be a Botswana based company and currently employ over 40 Batswana people whom play a vital role in its success. In return the Company helps and contributes to the national quest for job creation, which is the philosophy of the Botswana Government's SMME policy.

ABOUT US

Makoro Tank Technologies (PTY) LTD is a roto-molding Company that was established in Makoro Village near Palapye in 2011 with the aim to be the best manufacturers of water tanks in Botswana. We are proud to say that 5 years later we are the leading manufacturer and supplier of water tanks and other products in Botswana. All our products are made with high quality materials using the latest modern roto-molding technologies and machinery assuring you of the highest quality manufacturing standards from start to finish.

Our plant, located in Makoro Village, has over 2500 square meters. As we are growing we are still refining and further developing the roto-molding process to allow the manufacturing of large and complex products that could never have been conceived in the previous generation. We are also proud to offer a manufacturing service which is equally state of the art. We uphold a strong commitment to our customers. With us you get High Quality yet Competitively Priced product that are Sustainable, Maintenance Free and Environmentally Friendly.

We take pride in our products and care about our customers, that is why we use the eco friendly 100% virgin materials that has got UV8 to manufacture our products. No recycled material is used in any of our products. The material used has got higher tensile strength and higher impact and puncture resistance. The compounded material used is better for stability and uniformity in strength and colour. Our tanks can withstand water temperature up to 50°C.

Makoro Tanks offers a wide selection of products including water tanks, storage tanks, septic tanks, flower pots and farming products like water troughs and related accessories for both local and export markets. Each tank and product goes through very strict quality controls before it leaves the factory. Makoro Tanks would like the end user to have the knowledge that they are buying a superior product designed for the harsh Southern African weather and environmental conditions. Makoro Tanks are UV resistant for up to 8 Years. Makoro Tanks offers a wide selection of products including:

water tanks

- storage tanks
- septic tanks
- flower pots

We are proud members of ARMSA and Agrément South Africa.

PRODUCT PORTFOLIO

Makoro Tank Technologies is a Botswana based manufacturer of Roto molded products. All our products are made with high quality materials using the latest roto molding technologies and machinery assuring you of the highest quality manufacturing standards from start to finish.

We take pride in our products and care about our customers, that is why we use the Eco Friendly 100% virgin material that has UV8 to manufacture our products, no recycled material is used in any of our products.

Each tank and product goes through very strict quality controls before it leaves the premises. Makoro Tanks would like the end-user to have the knowledge that they are buying a superior product designed for the harsh Southern African weather and environmental conditions.

Our Compliance:

The Association of Rotational Moulders of Southern Africa (ARMSA) developed this South African Standard 1731:2017 in conjunction with the South African Bureau of Standard (SABS). It applies to polyethylene (plastic) chemical and water storage tanks.

The Tank Standard protects members of a broader construction, architecture, plumbing, landscaping and built industries as well as consumers against tanks of a lesser quality.

In order to get an official endorsement of our products (not covered by the SANS1731:2017, Makoro Tank Technologies approached Agrément South Africa to do a technical evaluation of our products. Our tanks were evaluated and tested and were subsequently approved fit-for-purpose. This certification is the official endorsement of our confidence in the technical merits of our products.

PRODUCT PORTFOLIO

Our Quality Commitment:

We take pride in our products and care about our customers, that is why we ensure that each and every products goes through very strict quality controls and checks before it leaves the premises. Our tanks come with a **10 Year Guarantee**. Our water tanks are certified by Agrément South Africa, Certificate No.: 2015/493 and we are also proud members of Rotational Moulders of South Africa (ARMSA).

Our 10 Year Guarantee:

We offer a Guarantee on our Tanks in normal applications to full integrity or retention from the date of purchase for a period of 10 (ten) years.

Our Guarantee does not apply in the event of the following:

- ✓ Any damage sustained during handling, storage or erection of the tank or any modification
- ✓ Any reaction or contamination of the tank from any chemical agents
- ✓ Iron / metal, vibrating or any other fittings not meant for use on our tanks
- ✓ Usage of the tank for any purpose not intended
- ✓ Liquid contents exceeding 40 degrees celcius
- ✓ Not installed on a level, smooth and strong base. No overhang of tank walls allowed.
- ✓ The filling rate exceeds the overflow rate

IMPORTANT:

- ✓ This guarantee is limited to our Roto-moulded tanks / products and does not apply to any fittings whatsoever.
- ✓ This is an exclusive guarantee given by us and no other guarantees, expressed or implied shall be of any force and effect.
