

LANSERIA

Rodlin Design Lanseria waiting area seating features a 1-part laminated wooden shell, available in various finishes. For enhanced comfort, optional seat and back pads can be upholstered in a selection of fabrics. The seating is supported by an aluminium die-cast leg assembly with a steel cross-support beam, ensuring stability and durability.

Each unit is equipped with adjustable glides on all feet to accommodate uneven flooring. The Lanseria seating is available in configurations of 2, 3, 4, or 5 seats to suit different space requirements.

Warranty - 3 Years
