Water Conservation Trial  
Kruger National Park

## Save precious clean water from being wasted

Triton Xerophyte is the only mixer that doesn't leave you standing wasting clean shower water as you wait for it to heat.

## Spend more productive time in your bathroom

Attend to other bathroom routines while Triton Xerophyte prepares your shower. No time-wasting standing waiting for hot water.

## Take the effort out of water-catching and conservation

Triton Xerophyte does the conservation work for you every time you shower. No more Buckets!

## No more fiddling for the right temperature

Triton Xerophyte's pre-defined settings and automated temperature and flow controls ensure the perfect shower.

### Full Parts Guaranteed

Each Triton Xerophyte mixer and controller is individually tested before it leaves the factory. Every mixer is backed by a full 3-year parts guarantee.

### For a Cleaner Conscience

The Triton Xerophyte is proven to save more than 30% water compared with traditional showers. The Triton Xerophyte is a more efficient and sustainable way to shower.

### Made in the UK

The Triton Xerophyte water-saving digital shower is manufactured in the United Kingdom.

### Easy to Install

The Triton Xerophyte is expertly engineered and rigorously tested to ensure the highest levels of quality and performance. It is also designed for quick, hassle-free fitting.

### Quality Assured

The Triton Xerophyte mixer and controller is built under the manufacturer's ISO9001 accreditation for safety and quality. The Triton Xerophyte's electric components comply with BEAB & NRCS safety standards.

## Water-Saving Features

No water wastage while waiting for the shower to warm up.

Continue with your bathroom routine until the alarm announces that the warm-up is complete and your shower is ready.

Shower timer with countdown display encourages a more efficient and focused water-conserving approach to showering.

Mid shower water-saving pause/restart function for shaving, soaping and shampooing.

An alarm sounds 30 seconds before shutting down in accordance with your pre-selected shower time.

Once the timer expires, the water flow stops automatically.
